

Java

```
class RecentCounter {  
    public RecentCounter() {  
    }  
    public int ping(int t) {  
    }  
}
```

JavaScript

```
var RecentCounter = function() {  
};  
  
/**  
 * @param {number} t  
 * @return {number}  
 */  
RecentCounter.prototype.ping = function(t) {  
};
```

C++

```
class RecentCounter {  
public:  
    RecentCounter() {  
    }  
    int ping(int t) {  
    }  
};
```

C#

```
public class RecentCounter {  
    public RecentCounter() {  
    }  
}
```

```
public int Ping(int t) {  
    }  
}
```
